xmulria, Va.

red at the Postofice at Alexandria, Virginia, as
md-class matter.]

were accustomed to a great deal of admiration from gentlemen, and I suppose caused much jealousy to exist in the breasts of our ess favored and darker-headed sisters, for they have shamefully formed a plot to throw us into ignominy, or at least to make it so uncomfortable for us that we are obliged to hide ourselves away from an inquisitive and laughing crowd. My hair is not red; that is, it never has been called red until lately, and now it certainly must have taken a deeper tint, for as I pass down the street I hear something like this from all sides: "Look for a white horse!" "Where's the white horse?" Why, haven't you heard of the red-hended-girl white-horse ersze? It's too funny for anything! If you see a red-headed girl just look for it and you are sure to see a white house. It's too funny. It never fails," etc. Now it is altogether "too lunny," and, to say the least, is very unconsfortable. A party was recently formed to investigate into the matter and find out, if possible, who was responsible for the plot (for plot it is) and the mystery, if any, connected with red hair and white horses. They unanimously agreed that there was no mystery, and that it is nothing more than a wickedly-gotten-by scheme to draw attention from us; for just so soon as the color of our hair is seen every one is looking for the horse, never as much as casting a glance or second thought upon us.-

Letter in Chicago Tribune. THE COMING ECLIPSE.- There will be a total eclipse of the sun on the 19th. Our satellite, when, at now meen, she passes be tween the earth and the sun, will completein hide the great central orb from the view of those who are in the right portion of the lobe and under the right conditions to beold an exhibition of celestist grandeur far surpassing any other seen by mortal eyes. Unfortunately, our country is not the favored spot for a view of the grand spectacle. The inhabitants of a narrow belt of sand in the Eastern hemisphere will behold the phenomenon in all its awe-inspiring glory. The moon before their wandering gaze will eneroach on the solar surface until every greatest glory of the scene is then unfolded. The great globe of the moon, of inky blackness, seems to hang suspended in A radiant crown of silvery light surrounds it, and rosy protuberances like tongues of flame flash forth from the lunar border. No words can express the sublimity and grandeur of the exhibition. The path of totality for the coming eclipse passes through Germany, Poland, Russia, Mantchoria and Japan, reaching its limit in the l'acidic Ocean. Astronomers from all parts of the world are establishing themelves in the most favorable positions for obervation, and will make the most of the few precious moments at their command for wresting from the sun some of the weighty secrets held in his emulpotent grasp. The most favorable stations will be at some distance east from the commencement of the path of totality, for the further east the oberver is the later will the eclipse occur.

DUTY ON TORACCO.-Assistant Secretary Maynard vesterday gave a decision in regard to the classification of leaf tobacco which will be of interest to the tobacco trade The question arcse on a decision of the colector at El Paso, Texas, assessing duty at the rate of 75 cents per pound on certain leaf tobacco imported from Mexico, of which 95 out of every 100 leaves were of the requisite size and fineness for use as wrappers, and 100 of which leaves weighed less than a pound. In his decision Judge Maynard says: "The subject of the tax is 'leaf tobacco,' not 'bales' or 'bands,' or 'packages' of leaf tobacco, and the liability to duty can be made to depend upon the form of the pack. age in which the importation is made. Every leaf, 85 per cent, of which is suitable for wrappers, and the weight of which is such that more than 100 leaves would be required to weigh a pound, is declared to be liable to the high rate of duty. The weight is not to be determined by hands or packages or bales, but by lenves. It is the practice to baies, but by leaves. It is the practice to regard the hand or package as the unit, and in case S5 per cent. of it is not found to be of light weight and in this light weight and in this control of the light weight and suitable for wrappers, then to regard the whole importation as dutiable at 35 cents per pound. He thinks such practice is not in accordance with the intent of the law, and should be discontinued. It follows that, in the case under consider-

ation, 59 per cent, of the invoice was dutiable at 75 cents per pound, and 41 per cent. at 35 cents per pound."

A COLLISION .- About 11 o'clock Sunday night a collision occurred between two freight trains on the Baltimore and Ohio Railroad as they were approaching Cumberland. The trains were eastbound, and their time was about an hour apart. The first train was heavily loaded with coal, and it stalled on a grade in the city and was compelled to run into the yard with a section, leaving the carrier on the main track. A brokerman section on the main my13 AMOS B. SLAYMAKER'S.

standing on the track, and it derailed a number of coal hoppers and telescoped a number of the latter train's box cars. One car was loaded with borrols of the latter train's for cars. car was loaded with barrels of kerosene. which were demolished. One car, loaded with groceries, was thrown across the track. half an hour before the body could be re-leased. The boy has been well cared for, and may recover. The other tramp was about forty years of age, and ran away after the accident.

Young men or middle-aged ones, suffering from nervous debility and kindred weak nesses, should send ten cents in stamps for illustrated book suggesting sure means o
